

MUHAMMAD YAWAR

BACKEND DEVELOPER | SOFTWARE ENGINEER

luckyhaider771@gmail.com | +923005225195 | [LinkedIn](#)

Professional Summary

Results-driven .NET Back-end Developer with **2+ years of experience** in building scalable, secure, and high-performance Web APIs using ASP.NET Core and Entity Framework Core. Proficient in designing clean architecture, implementing RESTful services, integrating third-party APIs, and optimizing database interactions for enhanced efficiency. Adept at collaborating in agile environments, troubleshooting complex issues, and delivering robust back-end solutions that improve product functionality and user experience.

Technical Skills

- **Programming Languages:** C#, SQL, Java
 - **Backend:** ASP.Net Core, Restful APIs, Entity Framework Core
 - **Version Control:** Git & GitHub
 - **Databases:** MongoDB, MySQL, SQL Serve
 - **Work Environments:** Agile Scrum
 - **IDEs:** VS Code, Visual Studio
 - **Security & Authentication:** JWT, 2FA, Role Based Access Control
 - **Testing & QA:** Postman, Swagger
-

Education

- **Bachelor of Software Engineering** (2022-2026) (Current)

Federal Urdu University Of Art Science And Technology

Work Experience

Software Engineer – Trucare Billing | September 2023 – *Present*

A comprehensive and user-friendly **Practice Management System** developed using **ASP.NET Core and modern backend architecture**, tailored for medical billing and healthcare providers. The system features efficient **patient onboarding, insurance eligibility checks, claims submission, denial management, and real-time billing insights**. Integrated **secure authentication (JWT)** and role-based access control to ensure data privacy and **HIPAA compliance**. Designed RESTful Web APIs to support seamless integration with external services such as **clearinghouses and EHR systems**. This solution automates routine administrative tasks, improves revenue cycle management, reduces claim rejections, and enhances operational efficiency and patient care.

quality for medical practices and billing professionals.

- Designed, developed, and maintained scalable, high-performance software solutions.
 - Collaborated with senior engineers to enhance middleware and cloud-based solutions.
 - Engaged in requirement analysis, system design, and business flow modeling to align with business objectives.
 - Developed RESTful APIs and backend services using C# and SQL Query.
 - Implemented AWS-based solutions with middleware application.
 - Designed and implemented secure APIs for managing secrets with RBAC.
 - Developed an analytics application using SQL Database to analyze and visualize client records through graphs and tables.
-

Languages & Proficiency

- **Urdu : Native**
 - **Balti : Native**
 - **English : Basic**
-

Hobbies & Interests

- **Reading**
- **Gaming**
- **FARMING**
